

## Compatibility with GoPro® “HERO7 Black”

INON INC. is pleased to announce that existing *SD Front Mask for HERO5/6* is confirmed compatible with **HERO7 BLACK** in combination with its genuine housing 「Super Suit」 as well to attach quality INON attachment lenses designed for action cameras and add arm system .

As the camera lens is identical with previous GoPro® cameras, performance (angle of view and depth of field) through INON attachment lenses below remains same as the performance of using those lenses attached on *HERO6 BLACK/HERO5 BLACK*. (\*2)

- [UFL-G140 SD](#) Underwater Semi-fisheye Conversion Lens

- [UCL-G165 SD](#) Underwater Wide Close-up Lens

As compatibility with the new HERO7 BLACK has been confirmed, product name of existing [SD Front Mask](#) has been changed as below.

### *SD Front Mask for HERO5/6/7*

--Same as *SD Front Mask for HERO5/6*

Product name/JAN Code will be updated on October 23rd, 2018 shipment and after.

--JAN Code: 456212143 897 2

Left: *SD Front Mask for HERO5/6/7*

Center left: *SD Front Mask for HERO5/6/7* installed on the GoPro® genuine dive housing *Super Suits*

Center right: *UFL-G140SD* installed on the *Super Suits* via *SD Front Mask for HERO5/6/7*

Right: *UCL-G165SD* installed on the *Super Suits* via *SD Front Mask for HERO5/6/7*

(\*1) The *HERO7 SILVER/HERO7 WHITE* is not compatible with the GoPro® genuine dive housing *Super Suits*.

(\*2) Though the *HERO7 BLACK* offers advanced video stabilization “HyperSmooth”, angle of view is same as previous *HERO6 BLACK* with its video stabilization activated as crop ratio of them is almost same.
