

# System Base III

INON INC. is pleased to announce official release of the *System Base III* relating products offering broad compatibility to support from compact housings to SLR housings on January 18th, 2019.

## *Main Base III*

--Release date: January 18th, 2019  
--JAN Code: 456212143 916 0

## *Holder III (\*1)*

--Release date: January 18th, 2019  
--JAN Code: 456212143 917 7

(\*1) Upon release of the *Holder III*, the *Holder II* will be discontinued and available from limited stock at our dealers.

## *Holder III Set* A set of one each of *Main Base III* and *Holder III*

--Release date: January 18th, 2019  
--JAN Code: 456212143 918 4

■ *Main Base III* product features

An essential base plate securely attached on the bottom of an underwater housing with two tripod screws to add a handle. As the width between tripod screws is variable at 33-105mm/1.3-4.1inch, this base widely supports from compact housings to SLR housings enabling you to use same base tray when upgrading camera system.

Compatible products:

- INON X1 series housing
- INON X-2 series housing
- Olympus PT-EP01, PT-EP03, PT-EP05L, PT-EP06L, PT-EP08, PT-EP10, PT-EP11, PT-EP12, PT-EP13, PT-EP14, PT-053, PT-054, PT-055, PT-056, PT-058
- SONY MPK-URX100A, MPK-HSR1
- Nikon WP-N1, WP-N2, WP-N3

Both ends can have optional *Holder III* (\*2).

(\*2)

The *Holder II* and *D Holder* is not compatible with the *Main Base III*.

The *Main Base III* is equipped with four screw holes each on both ends enabling to attach optional *Holder III* at three different angles (\*3)

(\*3) When installing the *Holder III* at a right angle (above right image), the *Holder III* may interrupt opening/closure of the combined housing. If this happens, please remove the *Holder III* to open/close the combined housing.
