In partnership with

Diving in Elba

# “DIVERS FOR AFRICA - photo contest 2017”

## **UNDERWATER WORLD’S PORTFOLIO: CONTEST FOR UNIQUE CATEGORY**

The Divers for Africa - Photo Contest has been renewed and, for 2017, is presenting a competition for a unique category: the Underwater World's Portfolio.

All photographers can participate by registering up to a maximum of two portfolio, each made up of three non-repetitive images among themselves and significant of flora and fauna of the underwater world, either in the marine, river or lake environment.

The theme of the entered Portfolio is open and without any limitation as to the lenses used. Images can therefore be interpreted by any technique, including the backlight, the artistic / fashion shooting, wrecks, double exposure and mixed in / out in the maximum of 1/2 frame ratio.

Consequently, both color and black and white photos are allowed, made with any type of digital camera, being understood that the assessment of the Juries will always be expressed on the combined value of the three competing pictures.

### **HOW TO PARTICIPATE**

The Divers for Africa - Photo Contest is divided into two sections:

**ADVANCED PHOTOGRAPHERS:** all the photographers already awarded in other national / international competitions.

- 1) Reflex / Mirrorless Category
- 2) Compact Cameras Category

**ROOKIE PHOTOGRAPHERS:** all the photographers never awarded in other national / international competitions.

- 3) Reflex / Mirrorless Category
- 4) Compact Cameras Category

### **REGISTRATION DEADLINE**

The deadline for submission of images is set at midnight on Friday, April 7, 2017

**Saturday, April 22, 2017 – h.15.00**  
**Museum of the Marine**  
**Via Armellini 18 - Cesenatico**

### **WHO ARE THE DIVERS FOR AFRICA**

For those who still do not know the activities of the association "Divers for Africa", we remember how all of their initiatives, including the Photo Contest, are always aimed at maintaining the active relationship of collaboration reached between the Faculty of Medicine and Surgery of the S. Orsola Hospital in Bologna and the St. Francis Hospital of Ifakara in Tanzania.

Uninterruptedly for six years, the Divers for Africa contribute to "the development of laparoscopic surgery" at the St. Francis Hospital of Ifakara in Tanzania. Why laparoscopy? Because, besides being a minimally invasive surgical practice, in a hostile environment such as Africa, laparoscopy has the advantage of reducing post-operative complications from septicemia. That's why one of our medical team of surgeons and anesthetists is always equipped to move to work directly in the field as well as to organize refresher courses and master classes with Tanzanian colleagues.
